

Co-operation is Cool

Judging criteria

- 1.The competitive elements of the project should not be overemphasised.
- 2.The evidence of teamwork and co-operation would be highly valued.
- 3.The educational value of the project would be more important than the technical aspect.
- 4.The use of the technology would be important.
- 5.If the theme of the project is not about the Donoghmore story then there should be some reference to the motivation etc provided by the "Triumph of Co-operation over Adversity" .(An article, preface, some worksheets done etc.)
- 6.The project would be displayed in the Laois Education Centre in March 2011 on Thursday March 31st. 4.30pm to 7.00pm
- 7.The judging would be done based on this display , which could include posters , craftwork , written work , computer work etc)
- 8.There will be a special section for special schools.
- 9.Judges should take the local environment into account.(Access to technology ,special children , age levels)
10. Inclusion of website would be a plus. (It doesn't have to be online.It could be added to Education Centre's website later.)
- 11.Percentage of work actually done by pupils would be important.
12. Pupils' own description of project to judges on exhibition day would be important.
13. A strict numerical marking system should not be used.
